

Continuation of statement of:

Shelagh McLove

I managed to run to the bedroom locked it and called the police. Eoin was shouting at me in the background threatening me if I called the police it would send him back to prison.

Eoin then left the home and I realised he had taken our car. I told the police this as I was still on the phone.

As a result of this assault I have sustained a cut just to the side of my left eye and my face is starting to swell. I did not want to attend hospital and used a cold compress to stop the bleeding. I have taken photos of this on my phone.

No one has the right to assault me and I want Eoin to be prosecuted. He assured me he would stop drinking but he hasn't and now I feel our relationship is at an end.
